ABOUT ME02

I'm Yusuf Akorede, a Full-Stack Developer skilled in building scalable web apps with React, Node.js, Go, and Python. I work with both SQL (MySQL, PostgreSQL) and NoSQL (MongoDB, Redis) to design efficient data solutions.

I enjoy solving problems, writing clean code, and creating user-focused applications.

Yusuf Akorede, Full Stack Developer

EXPERIENCE AND PROJECTS03

2025 - Present

Backend Developer – YorubaEcho

Developed and maintained the backend systems for YorubaEcho, an application focused on preserving and sharing Yoruba culture.

Implemented secure authentication, optimized database queries, and built scalable APIs to support the platform's core features

2025

Wagr - Personal

Built Wagr, a decentralized betting application on the Base blockchain.

Designed smart contract interactions, implemented event listeners for blockchain events, and added sockets for real-time notifications, delivering a seamless user experience for placing and managing bets on-chain.

2025

IPVerse - Hackathon

Created IPVerse, an IP information and lookup platform built on CampNetwork. Developed and deployed a fast, reliable web app with real-time IP tracking, and integrated the Camp Network Origin SDK.

It enable users to mint intellectual property, back their work, and monetize it through access control. Recognized as a hackathon finalist, live at ipverse.vercel.app.

EDUCATION04

2014-2019

Alx Africa

Software engineering

2014-2019

Alchemy University

Ethereum Bootcamp

SKILLS05

NextJS	MongoDB
Typescript	TailwindCSS
ExpressJS	Git & Github
Python	Go
SQL	Solidity

LANGUAGES06

English	Fluent
